

SAP

SAP stands for “Systeme, Anwendungen, Produkte in der Datenverarbeitung”, which – translated to English – means Systems, Applications, Products in Data Processing. SAP is an Integrated business software to process all functionalities of an organization to provide a unified solution.

SAP’s products focus on Enterprise Resource Planning (ERP). The company’s main product is SAP ERP. The current version is SAP ERP 6.0 and is part of the SAP Business Suite. Its previous name was R/3.

SAP something that doesn’t have any slowdown in the market. The graph of SAP so far has never seen the ground, but always seeing upward growth among the population.

Innovitt Global is one of the few companies who provide SAP ERP trainings on various modules in Lucknow. At Innovitt Global you get unlimited access to the latest SAP Education content.
