TECH SYSTEMS

INDUSTRIAL-SOLUTIONS

We are providing
comprehensive, customized
solutions for leading
industries.

- IDP (Industry Defined Project)
- UDP (User Defined Project)
- Final year project for B.E/B.Tech/Diploma Engineering Students

PLC

- We provide Technical Sales & Support in Programmable Logical Controller
- Expertise on all leading PLC controller

- PLC BASED AUTOMATION PROJECTS
- SCADA & HMI BASED PROJECTS
- AC/DC DRIVE & MOTOR PROJECTS
- INDUSTRIAL CONTROL PANELS

- MECHATRONICS BASED PROJECTS
- ADVANCED DCS & PROCESS INSTRUMENTS BASED PROJECTS
- PROJECTS ON SMART CITY SOLUTIONS

DRIVES

- Technical expert in both AC & DC drives
- We can build Servo Motor based Application
- Motor control panel designing & state of art manufacturing.

SCADA

- SCADA Development from ground zero & Also implement in your current systems.

HMI

- Operator Level console panel designing & developing for continues industrial process

MECHATRONICS

- State of art type Industrial Application Simulation kit.
- Recent trends in Automation for real working application
